

**Huron School District**  
**Continuity of Learning Plan**  
**School Year 2022/23**

Huron School District will continue to use face to face instruction 5 days per week for all students as its primary mode of instruction. As a part of face to face instruction, the Huron School District will continue the use of NWEA MAP Growth as an approved Benchmark Assessment System and will also create [annual school goals](#) as required by law.

Current COVID-19 guidance can be found on the district website, under the [COVID-19](#) link. Our in person learning environment and COVID-19 guidance are created with consideration of the most recent [CDC Operational Guidance for K-12 Schools](#) as well as guidance from the [Wayne County Health Department](#).

Additionally, remote learning options are available for students, providing asynchronous learning opportunities with support and assistance from an appropriately certified teacher.

The Huron School District continues to maintain a focus on academic, social and mental health supports for its staff and students through the use of social workers and other supports for those in need. We continue to provide students and staff with a safe and productive learning environment.
